Comments:	Then I decided to call the complainant, I have told her feed back, I tol her that the living environment is clean from the front section of the house, but I am not sure about the back section I wanted her to let me into her property in order to look over the fence the living environment, then she told me to wait for few minutes, after few minutes she arrived, then we drove to the back, where we have knocked on the gate of the neighbor that is directly to the back of the given address, the occupant grant us into the property. At the back of the house, the living environment was not clean, there were old faeces laying everywhere and there was no shelter provided to the dogs. There was a door that looked like is leading into the garage, however the door was blocked od closed off by security gate, that prevent the dogs from gaining access into the garage.
