Comments:	I met with the nurses who gave me access. Before signing the birds over, wr checked whether six nests were occupied or not to place them back from where they fell. We noticed all nests are broken or abandoned and could not find the specific one. They signed both over. Before this I also consulted with Danica from Tweet tweet who was closes at this time and she was unable to take them in . Admission numbers A52591/A52592. NFA. No donation received
