Subject: Help please!!!

This is the third time am reporting this matter. You've investigated these premises twice and found it to be acceptable circumstances for the dogs to be kept under: that may have been them, however there has since been a change within the home and it's got even worse now. The person who lived there before has eventually been admitted to a psychiatric ward. I think the woman, or the sister, or the person who's stayed behind, doesn't do dogs, doesn't like dogs, whatever it is, because I couldn't believe that it could actually deteriorate to the extent that it is now.

The dogs are skin and bones. They are two pit bulls who were in such reasonable condition the last time you were her. But no longer. My neighbour and I have been told by you not to feed them but we cannot NOT feed them over the wall. We also can enter the premises.

They live on a concrete surface - no grass and a swimming pool that if they fall in - I have no idea. The pool has never been used. . They have got disgusting dirty kennels and themselves refuse to enter them. They haven't had a gardener for a month and the gardener was the only person who cleans up their poo. They haven't even got anywhere to go and do their business without stepping into their own poo. They are not being fed. I don't even know if there's water out there for them because they're crying again every night.

I really need someone to come and take these dogs away. Please. Even if it means being kind enough to have them put down, they do not deserve this life that they're leading. I am absolutely beside myself. It is not just me; it's the other neighbors around us that are seeing this and are hearing this. Fortunately only two of us are able to see over the wall what the circumstances truly are.

Please can someone come as soon as possible? This is the address: 100 Athens Road, Flamingo Flay, in Table View. Please will you get in touch as soon as possible? My name you can see on the email here and I'm hoping that you could assist with this urgently.

Many thanks for the work you do. I know there are way worse circumstances but please do see what you can do.

Regards
Paula
