Comments: New complaint received from INSP237399
PLEASE INSPECT: There are 10 very small puppies and they are hitting and kicking the bogger dogs (the people are high on substances). I took food for the doggies and saw how many there are. Please help. I have asked them numerous times to unchain this doggy and they dont listen. The cage is in the sun no water or food and the rope he is toes to is so short he can barely move
