Type:	CASE DISCUSSION NOTE
Follow-Up Date:	2026-10-12
Comments:	Due to the heavy caseloads and inspectors being on leave, we have a number of new cases that require prioritisation. This is a follow-up regarding the dog's skin condition. According to the latest report, the owner sought veterinary treatment through the mobile clinic, and there has been a noticeable improvement in the dog's condition following treatment. A follow-up inspection is still required to assess the dog's current welfare and to determine whether the dog has had a litter of puppies. Should this be the case, the owner should be offered sterilisation assistance to prevent further breeding and promote responsible animal care.
