Further information

Hi at no.37 Reddy Avenue there's a black dog tied up in the front portion of the house by the fence on the left side of the property. The dog is tied up with no track on the chain. The concern is he is able to jump on the fence and I witnessed how he had to balance himself to not fall right over because the chain will choke him or break his neck as its not long enough to let him land on the ground on the other side so he will be hanging. I have reported these ppl before on other dogs that they had and it doesn't seem like they really care for the animals. Dont really know the reason they keep dogs. I've seen 2 other dogs there as well on different occasions but dont see them anymore . No pictures unfortunately. Not sure what the story is here. I personally think they should not keep animals. There's no exercising or walking being done or playing with them or attention given. Please have a look and educate them again. After the first reporting, they did as was told and untied the puppy and pretended to play with it for a short while. After that the dog was left to his own devices often seen jumping over the fence and running down the street to the homeless ppl at the post office side but he returns home later but easily can be stolen as he is friendly. Dont see that puppy either. Please investigate. Concerned neighbor for the animals only.

Cape Town Metropole

My report falls within the greater Cape Town Metropole .

Address

I have the physical address
