General Report Comments: An inspection was conducted on-site after being granted access by the property owner.

Observations & Findings:
Animal Condition & Living Area: The dog was observed on a static chain. The animal has a clean living environment with access to adequate shelter and clean water.
Owner Explanation: The owner recently acquired this dog after rehoming his previous one. The new dog tends to jump the perimeter wall, so the owner attached a static chain to prevent the animal from escaping into the road and causing a hazard.
Actions Taken & Directives:
Consultation: Acknowledged the need to keep the dog securely contained on the property, but educated the owner on replacing the static chain with a running chain. Provided verbal instructions and an instructional pamphlet detailing how to assemble a running chain.
Warning Issued: Warning Notice #25832 was issued to and signed/accepted by the owner.
Directive: Install and place the dog on a running line/chain within 10 days.
Follow-Up:
A follow-up inspection will be conducted after the 10-day period expires.
