General Report Comments: I was allowed access to the property to do my inspection. The dog was at the back of the property. The dog gets access to a kennel, and there was drinking water. Obviously, somebody had been there earlier to feed and give water, as it is a hot day today and the dog had access to water.

The dog appeared to be in a fair condition. The dog is very playful and energetic, and the mucous membranes were pink and moist. The living area was clean, and there were two different bags of dog food seen in the house.

It is my opinion that this dog is well taken care of. Case can be closed.
