General Report Comments: An inspection was conducted on-site with the property owner to assess the condition of two young dogs.
Observations & Findings:
Animal Condition: Both dogs are under one year old, appear lean, but are not strictly underweight.
Body condition is fair overall, and neither dog shows visible scars, wounds, or indications of fighting.
Living Environment: The dogs are free-roaming on the property with access to clean water and adequate shelter.
Diet & Feeding: The owner usually feeds Bobtail dog food, but was currently out of stock and supplementing with mealie meal and vegetable scraps until buying more.
Actions Taken & Directives:
Dietary Guidance: Informed the owner that mealie meal and scraps alone are insufficient. Advised that proper, nutritionally balanced dog food must form the core base of their diet, though scraps can be mixed in to stretch meals. Instructed the owner to purchase proper dog food immediately.
Conclusion & Follow-Up:
Case remains open to monitor the dogs' growth and weight progress over time.
A follow-up inspection will be conducted in a few weeks to re-evaluate their weight and diet.
