ANIMALS IN GOOD CONDITION	Yes
VETERINARY PROBLEMS / HEALTH CO	Yes *** Dog displayed mobility issues

General Report Comments: Warrant execution and animal seizure conducted with Metro Police assistance .
Authority & Execution:
Warrant: Obtained from Wynberg Magistrate's Court.
Escort: Accompanied by Metro Police and Inspector Philander.
On-Site Contact: Met at the gate by Amal (the owner's sister), and informed her that we are there with a warrant from the court granting us entry to the property. She immediately contacted her brother Aneeq, the owner.
Owner Communication & Compliance:
The owner spoke via telephone, expressing hostility and claiming the action was unnecessary.
Concealment & Misrepresentation: The owner was informed that previous statements claiming the dog was absent/sterilized were false, constituting criminal misrepresentation to an enforcement officer.
Animal Observations & Medical Assessment:
Living Conditions: The dog was free-roaming in the backyard with access to clean water, adequate shelter, and a clean, spacious area. Body condition was fair; the animal was active and friendly.
Mobility Issue: Exhibited difficulty with hind legs, swaying while walking, losing balance, and sitting uncomfortably after short movement.
Reproductive Status: Mammary glands were swollen and lactating, with no surgical scarring present. The owner's claim of prior sterilization was contradicted by physical examination.
Actions Taken & Legal Documentation:
Seizure: The dog was seized for veterinary assessment and loaded into Inspector Philander's vehicle.
Documentation Handed Over: Served a copy of the warrant, founding affidavit, and Seizure Notice #02969 to Amal. Amal accepted all documentation but declined to sign the seizure notice.
Property Search: Inspected the premises with Metro Police; no additional animals were found, and no property damage or incidents occurred.
SAPS Reporting: Logged the seizure at Wynberg SAPS under OB Number 238/10/2026.
Status & Follow-Up:
Inspector Philander transported the animal to the SPCA.
Following the seizure, the owner arrived at the SPCA to claim the dog.
Per instructions from Supervisors Rudi and Rowan, inspectors will check in with the veterinary team on Wednesday to review the dog's official diagnosis before determining further steps.
