Case No: INSP235137
Date & Time of Inspection: 05 October 2026 @ 15h45
Address: 52 Kitty Hawk Street, Rocklands, Cape Town, Western Cape
Inspector: Jeffrey Mfini
Warning No: 15123
Admission No: G 46600

1. Person Responsible

- Registered Owner: Ms. Rhoda Laminie - ID No: 720214 0212 080 - Cell: 062 656 5370
- Person Met: Rhoda Laminie and her partner
- Warning Signed By: Austin - Stepfather of Thomas

2. Animals Found on Property - Total: 3

- Dog 1 - "Queenie" - Female - Appears to be in fair condition.
- Dog 2 - Queenie's puppy - Appears to be in fair condition.
- Dog 3 - Male Pit Bull - Kept at the back of the house - Chained on a short static chain - Appears to be in fair condition but external parasites (fleas) were observed moving on the dog.

3. Attendance & Observations

On my arrival onto the property I met with Rhoda who allowed me onto the property. She was with her partner.

I observed her dog called Queenie that appears to be in fair condition. Queenie was with her puppy that also appears to be in fair condition. We then booked Queenie in for sterilization.

We then proceeded to the back of the house where the male Pit Bull is being kept. I observed the dog that appears to be in fair condition. However, external parasites such as fleas were seen moving around on the dog.

The dog was still chained up on a static short chain and the living environment was not clean. There was hazardous material present that may cause unnecessary injuries to the dog.

4. Action Taken

A. Admission: Queenie collected for sterilization - Admission No: G 46600.

B. Warning Issued - Warning No: 15123 - Signed and accepted by Austin.

You are hereby warned to:

- (1) Remove all the hazardous material within 48 hours and keep the area clean at all times.
- (2) Place your dog on a running chain within 5 days.
- (3) Provide your dog with adequate treatment for external parasites within 48 hours.

C. Follow-up: Return to property on Wednesday 08 October 2026 to drop off Queenie after sterilization and to conduct follow-up inspection on the male Pit Bull at the back.

Inspector: Jeffrey Mfini
