Case No: INSP235137

Date & Time of Inspection: 07 October 2026 @ 11h23

Address: 52 Kitty Hawk Street, Rocklands, Cape Town, Western Cape

Inspector: Jeffrey Mfini

Warning No: 15123 (Previously issued - no new warning)

1. PERSON RESPONSIBLE

- Registered Owner: Ms. Rhoda Laminie - ID No: 720214 0212 080 - Cell: 062 656 5370
- Person Met: Rhoda Laminie and her partner
Stepfather of Thomas.
Thomas Laminie, owner of the Pitbull in question.

2. ANIMALS FOUND ON PROPERTY - TOTAL: 3

- Dog 1: "Queenie" - Female - Sterilized (just returned) - Fair condition
- Dog 2: Queenie's puppy - Fair condition
- Dog 3: Male Pit Bull - Belongs to Thomas - Kept at back of house - Chained on short static chain - Fair condition but external parasites (fleas) observed moving on dog

3. ATTENDANCE & OBSERVATIONS

On my arrival onto the property I met with Rhoda who allowed me onto the property. She was with her partner Justin.

I returned the dog called Queenie that appears to be in fair condition after she was sterilized. Queenie was reunited with her puppy that also appears to be in fair condition. We need to collect the puppy in 2 months for sterilization.

We then proceeded to the back of the house where the male Pit Bull is being kept. I observed the dog that appears to be in fair condition. However, external parasites such as fleas were seen moving around on the dog.

The dog was still chained up on a static short chain and the living environment was not clean. There was hazardous material present that may cause unnecessary injuries to the dog.

There was water provided to the dogs.

4. ACTION TAKEN

I didn't issue a warning as we issued enough warnings for the same thing, I think we need to obtain the warrant and remove the Pitbull dog that belongs to Thomas.

- Queenie returned post-sterilization - Admission No G 46600.
- Puppy to be collected in 2 months for sterilization.
- Pitbull: No new warning - recommendation for warrant and removal due to repeated non-compliance on chaining, cleanliness, hazardous environment and parasite control.

5. WAY FORWARD

- Obtain warrant for removal of Male Pitbull belonging to Thomas.
- Schedule puppy collection for sterilization in 2 months.
- Monitor Queenie post-op.

Inspector: Jeffrey Mfini

ACTIONS

NO ACTION REQUIRED

REPORT OUTCOMES
