General Report Comments: Upon arrival at approximately 13H59 I met with Zandre Fredricks, who gave me access. I only observed two dogs on the property. Zandre identified himself to me as the owner of the dogs and explained they rotate sometimes in the house sleeping or in the kennel. The one kennel outside was big enough for the two dogs.

I observed one adult x breed, tan and brown in color, teeth is fair and body is also fair, alert and responsive, it was a male.

I observed another female pitbull x Black and white in color, teeth is fair and in an overall fair condition.

The kennel was big enough for both dogs.
They had access to potable water.
And the living environment was clean.
For now I'm finalizing the case.
