General Report Comments: I was allowed access to the farm/property by the security guard at the gate. The horse was still in the same paddock as with my two previous inspections. In a paddock without access to any shelter. The horse had access to water and feed, but no shelter.

As mentioned previously, there are at least six adequate paddocks with shelters within 100 metres of where the horse is currently being kept.

Warrant to be applied for so that we can remove the horse .
