General Report Comments: Upon my and inspector Elani arrival at the facility we met with captain olivier, captain kapank, captain snyman(national office), warrant officer meyer and a colonel from the mounted unit. The officers sat down with us in the board room and discussed the relevant concerns . We spoke to all the officers of which it did not appear as if they want to acknowledge the behavioural concerns raised, it was more like them wanting to argue us into a corner. When we spoke to them about possible behavioural concerns they kept saying they dont think theres anything wrong with the dog's behaviour as dogs do get excited when they see people as its a restricted area. When asked if the 2 presidential dogs "evin and ice" are going to Roodeplaat, they refered us to the presidential unit and said thats there dogs so they must sort out there own dogs out. I once again informed them about the definition of a owner in terms of the animals protection act 71 of 1962 but they maintain its presidential departments dogs.

Captain snyman also informed us that we cant make a assessment on 1 visit and just say there is behavioural concerns as we are limited to knowledge on that aspect. I informed captain snyman it "APPEARS" the dogs have a behavioural concern hence why we are saying the dogs need behavioural assessments by a qualified behaviourist. Captain snyman then said unfortunately we will then have to bring in a behaviourist on our own expense as they make use of services within the saps department which is in Roodeplaat.

We asked them about a exercise roster and they wanted to know is that a new implementation that we trying to enforce or is it an actual requirement, so we if are requesting that from them then we will first need to bring it to the attention of brigadier Kekana who is in charge of Roodeplaat for veterinary and behavioural assessments. They also feel its a isolated request so they want it to rather come from there superiors and then they will implement it into there work system.

Captain snyman then told us we need to first see if the dogs spin when we are there and if the dogs spin if warrant officer meyer is alone with the dogs however of the dogs are still spinning when alone with warrant officer meyer.

They have complied with shelters in the exercise camps, the water buckets are now tied down with cable ties and the living environment is clean.

I will be taking a neutral vet/behaviourist with me to the unit Doctor Pypers to confirm if there is behavioural concerns with dogs. Once Doctor Pypers has given feedback, the case will be discussed with chief inspector Jaco on the way forward.
