1. PERSON RESPONSIBLE

- Registered Owner: Munier Enus - DOB: 1991/08/13
- Person Met: Rushuda Enus - Family member (initially) and later the owner himself
- Other Owner: Male dog also has another co-owner on property

2. ANIMALS FOUND ON PROPERTY - TOTAL: 2

- Dog 1: "Macy" - Female Boerboel - Not sterilized - Extremely underweight
- Dog 2: "Rex" - Male Boerboel - Cream/White - Not sterilized - Old dog - Underweight

3. ATTENDANCE & OBSERVATIONS

On my arrival onto the property I met with Rushuda who allowed me onto the property.

On my arrival I noticed that the situation is still looking the same or worse. There was no change at all.

- Tethering: Both dogs still chained up with short static chains - Macy approx 2.5m, Rex approx 2.2m
- Shelter: Both dogs still without proper shelter - only a rubbish bin next to Macy
- Water/Food: Both dogs still without water and food
- Shade: No shade
- Living Environment: Faeces all around
- Vet Care: Both dogs were not taken to the vet as per previous warning

Detailed Condition:

- Macy: Extremely underweight, no water, short static chain (2.5m), no proper shelter, no shade, faeces all around
- Rex: underweight, short static chain (2.2m), no water, no shade

This is an ongoing concern property. Owners only comply when they know SPCA is coming.

4. ADDITIONAL DISCUSSION WITH OWNER ON LEAVING PROPERTY

When I was leaving the property I met with the owner of the dogs. He told me that he is sharing with another owner of the male dog that is also onto the property.

He then told me that they are busy building the shelter for the dogs. He also mentioned that the other owner will help him with the equipment of running chains.

However he told me that he didn't take the dogs to the vet as he was working. But today he was off. Still today he didn't take the dogs to the vet. He is not that serious.

5. ACTION TAKEN

I didn't see the need of issuing a third warning as we were onto the property few months ago, and the owner was issued with warnings to rectify the same concerns that we again facing, the owners know what is right and what is wrong when it comes to the animals, they have had enough education, it appears as if they are not willing to continue looking after the dogs in correct way they want to mistreat them.

No third warning issued.

6. WAY FORWARD / RECOMMENDATION

Let's continue by obtaining the warrant and remove the dogs.
