ADEQUATE SPACE AVAILABLE	Yes	
CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Wound on leg, but healing
CONFINEMENT OF ANIMALS	Free roaming - property not adequ	

General Report Comments: An inspection was conducted at a location provided by Inspector De Vos regarding a dog with a leg wound.
The following observations, owner communications, enforcement actions, and security notes were recorded:
Site Observations & Animal Assessment:
Animal Condition: Fair body condition; free-roaming in the area with access to adequate shelter and clean water.
Medical Status: The dog has an open wound on its leg, partially healed but kept open due to constant licking. Though not severely distressed, the wound poses a risk of further complications without veterinary intervention.
Owner Communication & Context:
Interviews: Spoke with the owner's brother and the owner's girlfriend (Lezanne).
Barriers to Care: The owner is hesitant to let third parties transport the dog to the vet out of fear it will not return, but has been delayed by work. The brother noted difficulties walking the dog outside its usual area.
Compliance Commitment: Lezanne committed to ensuring the dog receives veterinary care immediately.
Notice & Enforcement Action:
Warning Issued: Issued Final Warning Notice #25817 to the owner, accepted and signed by Lezanne.
Directives: Requires adequate veterinary treatment for the dog within 48 hours (final deadline granted until Saturday) and proof of treatment to be submitted to the SPCA.
Legal Warning: Informed parties that failure to comply may result in legal action or confiscation/removal of the dog.
Officer Safety / Security Incident:
Hostile Interaction: Unrelated local residents whose dog was previously seized by the SPCA initiated a confrontation and issued verbal threats ("watch out when coming here").
Safety Protocol: Officer disengaged without escalating. Heightened awareness and safety precautions are required for all future follow-up visits to this area.

ACTIONS

Warning Issued	25817
