CHECKLISTS

General Report Comments: An inspection visit was attempted on-site to follow up on a previous directive requiring veterinary treatment for a dog.
Site Assessment & Guard Inquiry:
Structure Inspection: Checked the site structure; neither the occupants nor the dog were present.
Security Feedback: Spoke with on-site security, who reported that the occupants previously left the dog with others, but now routinely take the dog with them every day.
Evasion Assessment & Search:
Owner Behavior: The occupants appear to be intentionally evading SPCA inspectors to avoid proving veterinary compliance.
Taxi Rank Search: Security indicated the occupants frequently go toward the nearby taxi rank. Conducted an immediate search of the taxi rank, but neither the occupants nor the dog were located.
Case Status & Next Steps:
Escalation: Inspector will consult with SPCA supervision to determine the legal strategy and enforcement options for locating the evading owners.
Case Status: Open.

Supervisor Rowan advised that we let the case hang for a few days to let them think we not coming back, and we can return next week Friday
