Please inspect the property for 2 dogs (1 Chihuahua and a Pit Bull) - the owners are not cleaning up the dogs' poo and the smell is unbearable. The dogs are kept in front of the property.

On my arrival onto the property I met with the family members and the owners' family who allowed me onto the property.

I observed Dog 1 - Survivor: Female Pit Bull type, unsterilized, appears to be in fair condition. There was tick infestation on the dog. The dog was secured to a running chain and the dog did gain weight. There was clean water, clean living environment and there was a new wooden shelter provided.

I observed Dog 2 - Misty: Female Jack Russell, White and Tan, unsterilized, appears to be in fair condition. Still tethered on a static rope. Owners are busy organizing the running chain.

The living environment was clean, no bad smell at time of inspection.

- Compliance noted for Survivor - Now on running chain, clean water, new shelter, environment clean.
- Advised owners to place Misty on running chain as well. Owners stated they are busy organizing running chain.
