General Report Comments: The dogs were lying outside the gate at the time of my inspection.

One dog, a female, was limping, favoring its front left paw.

I attached a 24 contact warning to the gate. And also requested that the owner have the injured female dog examined by a vet within 72 hours.

At the time of my initial inspection, all 3 dogs appeared to be uninjured.

I heard a bigger dog barking, but could not determine if the dog was on the property or on the adjacent property.

Warning issued as follows"

1. Vet check for injured dog within 72 hours
2. Contact the SPCA within 24 hours.

I also mentioned that there is the option to surrender the dog(s) to us.
