General Report Comments: I was allowed access to the property by Keegan, the owner. He told me that he was concerned about the notice to comply attached to the gate.

He informed me that him and his partner had been to Germany for the past week to attend a German Shepherd meeting/breed show.

He told me that they had arranged for someone to look after the dogs.

He also told me that the dogs are trained twice a week. And because they had not been trained the past week, they were highly energetic, and that would be the reason for them barking and making a noise.

Both dogs appear to be in excellent condition. They had access to shelter, a carport, food and water, and the loving environment was clean.

I did not observe any welfare concerns at this property as the dogs are well taken care of.

Case can be closed. No welfare concerns.
