CHECKLISTS

General Report Comments: Upon follow-up I immediately noticed that my warning that I left had been removed however no contact was made, im bot sure if the kids or someone in the area might have removed it. I shouted at the gate but no one came out of the property unfortunately.

I went to the neighbors at nunber 9 to look over their wall to assess the dog. The dog appeared to be sick and emaciated as ribs visible, the dog was walking slow and seemed to be in discomfort as well. There was shelter seen for the dog or an area it can use to hide from the elements. I gave the dog some food to eat and water as well from the help of the neighbors.

The community also is concerned for the dog as everyone is saying this dog has been suffering on this property and owners are not coming back to help the dog.

Im of the opinion that a warrant is needed to remove the dog to prevent it from any further suffering
