CHECKLISTS

General Report Comments: As I pulled up to the property, I saw a black female crossbreed with engorged mammary glands running past the house.

There was no response to my knocking on the gate. I spoke to the neighbours and they confirmwd that someone is living there and that there are dogs on the property but the dogs usually run around in the neighbourhood.

I saw the puppy, and it appeared to have a hip injury possibly. When the female dog came close to the property, the puppy escaped the property and was running in the road. I then collectwd the puppy to prevent it from being knockwd or injured further.

Dog admitted on A106415

I attached a 14 hour contact notice to the gate, requesting the homeowner to contact us regarding the animals in their possession, custody and or care. I also mentioned that if we do not receive communication from the owner(s), we will assume that the animals have been abandoned and will apply to a magistrate to have the animals removed.

One of the front windows of the house had a hole in it.

Follow up tomorrow.
