WATER AVAILABLE	Yes
ADEQUATE SHELTER AVAILABLE	Yes
ADEQUATE SPACE AVAILABLE	Yes
CLEAN LIVING ENVIRONMENT	Yes
ANIMALS IN GOOD CONDITION	Yes
VETERINARY PROBLEMS / HEALTH CO	No
CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: An inspection was conducted at a residence situated on a military base following neighbor complaints regarding neglected and free-roaming dogs.

Site Assessment & Animal Conditions:

On-Site Findings: Met with the owner (Tumelo). Two puppies were observed on the property in fair body condition, bright, alert, and well-cared-for.

Living Environment: The animals reside in a spacious, clean environment with access to clean water and adequate shelter (kennels).

Neglect Allegations: Allegations of neglect were unsubstantiated. The owner clarified that while the puppies remain secured on site, the mother dog frequently escapes and roams the area despite efforts to contain and locate her.

Surrender & Rehoming Plan:

Adult Female: The owner intends to surrender the adult female dog due to her roaming behavior. A joint search of her usual roaming areas was conducted during the visit, but she was not located.

Puppies: The owner is currently rehoming the litter. He aims to find a home for one puppy, retain the remaining puppy, and surrender the mother.

Protocol: Provided the owner with SPCA office details and a case reference number. Once the mother dog is secured on the property, the owner will contact the office to arrange for a driver to collect her (and potentially the second puppy).

Case Status & Next Steps:

Status: Case remains open.

Follow-Up: A follow-up visit will be conducted in 1–2 months (when the puppies reach six months of age) to arrange sterilization for the remaining animals on site.

ACTIONS

NO ACTION REQUIRED

REPORT OUTCOMES

Follow-up inspection to be conducted 2026-11-02
