Case No: INSP237409

Date & Time of Inspection: 05 October 2026 @ 12h45

Address: 29 Knorhoek Road, Sir Lowry's Pass, Western Cape

Inspector: Jeffrey Mfini - Accompanied by Cadet Inspector Bamanye

Warning History: First Warning No: 25928 / Second Warning No: 15120

1. Person Responsible

- Owner Name: Mahomba - ID No: Not available
- Person Met: Richard Williams - Caretaker
- Caretaker resides next to the railway line informal settlement, in Sir Lowry's Pass.

2. Nature of Complaint

From Inspector Kyle at AWS: Hi we have issued a warning for this cow, but it's still in the same condition as last week, as we don't have a farm yard unit I think this cow is now at the point that it needs proper veterinary treatment.

3. Attendance & Observations

On my arrival onto the property I was accompanied by Cadet Inspector Bamanye. We then proceeded to the field where I saw the cow on Saturday. We checked on the field, we couldn't find the cow.

We then proceeded to another field where most of the cows normally graze. Today I met with Richard Williams and we wanted to know where is the cow in question. He told us that he left the cow on the field to graze. We then told him that we were on the field but we couldn't see the cow. We told him to take us to where the cow was. He agreed.

He got into the vehicle. We drove back to the field. We looked around without finding the cow. We then requested him to take us to the kraal because we wanted to see where they normally keep the cow. We went back to the kraal, we couldn't find the cow there either.

The injured cow could not be located at time of inspection. Previous warning for veterinary treatment not complied with.

4. Action Taken - SECOND WARNING ISSUED

As the cow could not be located and there was no compliance with previous Warning No: 25928, I issued Second Warning No: 15120.

Warning was signed and accepted by Richard Williams who promised that he will give it to the owner.

Warning for the following:

(1) Your cow is badly injured, therefore you must take it to the vet within 20 hours for adequate treatment. We must be provided with proof from the vet.

(2) Contact the SPCA within 20 hours on 021 700 4158/9

Follow-up: To conduct follow-up inspection tomorrow 06 October 2026 to locate the cow and verify veterinary treatment.

Inspector: Jeffrey Mfini

ACTIONS

Warning Issued 15120
