General Report Comments: An inspection was conducted across two properties to locate and inspect a reported dog.

Initial Property Visit:
Status of Subject Dog: The occupant stated the dog was temporarily boarded for a week but proved aggressive. The dog's primary owner collected the animal on Friday.
Other Animals On-Site:
Cat: Present on the property (absent during inspection); adequate food and water provided.
Poultry: Four chickens housed in a clean, spacious coop, in fair body condition with adequate access to food and water.
Follow-up Visit (Number 2):
Interview: Met with a resident named Zane, who clarified that the subject dog did not reside there permanently but was temporarily brought from an outside location for breeding/mating.
Site Inspection: Inspected the premises with permission; no dogs were found on site. The occupant could not provide a secondary residence address for the dog's owner.
Conclusion & Recommendation:
No welfare violations or issues were observed at either location, and the subject animal is no longer on either property. No further follow-up is required.
