ADEQUATE SPACE AVAILABLE	Yes	
CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	Slightly underweight
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Slightly underweight
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: An inspection was conducted at the property. Initially, there was no response upon knocking and shouting, but contact was subsequently made via a child on the premises.

Observations & Findings:

Dog Condition: One dog observed free-roaming in a clean, spacious yard. The animal is not severely emaciated but is visibly underweight.

Shelter: No adequate shelter available. The resident explained the previous kennel was stolen recently and they intend to build a new one.

Water: The dog's water bowl was completely empty.

Health/Medication: The resident noted that her daughter (the dog's owner) has dewormer and booster tablets on hand but has not yet administered them.

Actions Taken & Directives:

Consultation: Educated the owner's mother on the necessity of providing continuous water, adequate shelter, administering dewormer, and increasing daily food intake to improve the dog's body condition.

Warning Issued: Warning Notice #25824 was issued to and accepted by the owner's mother on behalf of the owner.

Directives:

Food & Health: Administer deworming medication and provide adequate food daily to increase food intake and address the underweight condition.

Water: Supply clean, potable water 24 hours a day.

Shelter: Provide adequate, weather-proof shelter against all elements within 14 days.
