General Report Comments: I have been to thsi property before - in 2022 - where there was also an alleged complaint about cats. This time around, the front door to the property was open and I was allowed access to the property by the owner, Aneesa. She told me that she has 4 cats. One of the cats, a black tuxedo cat, ran away as I was speaking to the owner. She would not find the other two cats. She told me that the DMS cat suffers from contact dermatitis and is on treatment, She showed me the treatment that she uses for the cat. The cat was sleeping in the sun at the time of my inspection and appeared to be in a fair condition. The cats had access to shelter and water and I did not observe any welfare concerns. Case can be closed.
