General Report Comments: I was allowed access to the property by the owner.

There were five dogs on the property, as per my initial inspection. Three boerboels and 2 Jack Russell Terriers.

All five dogs appear to be in a fair condition. They had access to water and kennels and a wendy house that could be used as a kennel if needed. The door of the wendy house remains open at all times.

The living area was clean and I did not observe any welfare concerns with any of the dogs. All of them had pink and moist mucous membranes.

Owner informed me that we had been to the property previously and not found any welfare concerns. He told me that the younger dogs is allowed to sleep at the front of the property at night. As mentioned in my initial report, there is a kennel and a bowl of water at the front of the property to accommodate the dog.

Case can be closed.

No welfare concerns.
