General Report Comments: Initial Location Check:
Inspected No. 79; confirmed no animals were present on the property.
Property owners redirected inspectors to No. 73 down the road, noting a high concentration of dogs at that address.
Inspection at Subject Property (No. 73):
Animal Population: Approximately 30 dogs (adults and puppies combined) were present on-site.
Observed Conditions: Most dogs were free-roaming. Severe welfare concerns were documented, including one dog with an injured leg/limp, one emaciated dog, and multiple dogs that were underweight and lethargic.
Food & Water: No drinking water was provided. Tenants confirmed the owner frequently lacks food for the animals and could not show any food stores on-site. Feeding relies on sporadic neighbor assistance without a consistent feeding regimen.
Shelter: Multiple structures were available on the property, but adequacy for ~30 animals could not be confirmed.
Overall Assessment: Indication of severe neglect and uncontrolled/indiscriminate breeding causing an unmanageable population increase without proper care or planning.
Owner Contact & Directives:
Tenants stated the owner, Calvin, was at work. Attempted telephonic contact was unsuccessful (no response).
Advised tenants to encourage the owner to voluntarily surrender the animals .
Written Warning Issued:
Notice Number: 25840 (Signed and accepted by resident Tanya to be delivered to owner Calvin).
Requirements Specified:
Provide adequate daily food to all animals.
Provide continuous (24-hour) access to clean, potable water.
Obtain veterinary care within 24 hours for all sick/injured animals (including the limping, emaciated, and lethargic dogs) and submit the veterinary report to the SPCA.
Contact SPCA Inspector Y. Abrahams within 24 hours to discuss resolution options, including animal surrender due to overpopulation.
Case Status:
Active / Pending Owner Compliance within 24 hours.
