General Report Comments: An inspection was conducted on-site with the owner present regarding an injured dog.

Observations & Findings:
Incident & Injury: The owner reported the dog was struck by a motor vehicle earlier that morning. The dog was in fair body condition but suffered severe trauma, rendering it unable to use its hind legs properly. The animal was in evident pain and high distress.
Owner Response: The owner expressed care for the dog but had not yet secured emergency care, mistakenly expecting an ambulance service.
Actions Taken & Directives:
Legal Duty Clarified: Informed the owner of his statutory duty to provide immediate medical treatment, explaining that failure or inability to secure care would necessitate removal.
Voluntary Surrender: After discussing the available options, the owner reluctantly agreed that surrendering the dog was in its best interest.
Documentation: Completed Admission Form #A105009, transferring legal ownership of the dog to the SPCA.
Safety & Warning: No written warning notice was issued on-site due to safety concerns regarding the high-risk and volatile nature of the area.
Conclusion & Recommendation:
The dog was safely loaded into the vehicle and transported to the SPCA for emergency veterinary evaluation and treatment.
As full ownership has been transferred to the SPCA, this matter is closed with No Further Action (NFA) required.
