CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	2 dogs with skin conditions, 1 mother cat that was sick and leth
VETERINARY PROBLEMS / HEALTH CO	Yes ***	2 dogs with skin conditions, 1 mother cat that was sick and leth
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: An inspection was conducted on-site; access to the property was granted by the owner.
Initial Animal & Living Condition Assessment:
Dogs (2): Free-roaming with access to clean water and indoor shelter. Fair body condition overall, but both exhibited noticeable, non-severe skin conditions requiring veterinary attention.
First Cat & Litter: Sickly mother cat with 3 kittens. Kittens were in fair body condition. The mother cat was thin, sickly, lethargic, coughing, and inappetent (refusing food and water).
Second Cat & Litter: Healthy mother cat with 4 kittens housed in a separate room. All were in fair body condition with adequate shelter and water provided.
Owner Consultation & Surrender:
The owner cited financial constraints and lack of transport as barriers to providing veterinary care . Following an explanation of potential legal implications regarding prolonged neglect , the owner agreed to surrender the animals requiring medical intervention.
Animals Surrendered: 2 dogs (skin conditions), 1 sickly mother cat, and her 3 kittens (total: 6 animals).
Animals Retained: 1 healthy mother cat and her 4 kittens.
Documentation & Directives:
Admission Forms Completed: A105011, A105018, A105017, A105014, A105012, and A105013 (transferring ownership of 2 dogs and 4 cats to the SPCA).
Warning Issued: Notice 15224 issued, signed, and accepted by the owner, stipulating that veterinary treatment must be provided without delay for any future sick or injured animals.
Case Status & Follow-Up:
Surrendered animals were impounded and transported to the SPCA for care .
Follow-up Planned: Re-visit scheduled once the retained kittens reach age to facilitate the spaying/sterilisation of the remaining mother cat.
