General Report Comments: An inspection was conducted on-site; access was granted by the dog's owner.

Animal Assessment & Medical Condition:

Subject Animal: One small puppy, observed free-roaming in fair body condition.

Injury & Condition: Suffering from a severe leg injury resulting from a motor vehicle accident two days prior. The leg was found bandaged, and the puppy was visibly struggling to walk.

Current Care: The owner reported the puppy is eating, drinking, and moving slightly. The owner admitted to administering Panado to the puppy for pain relief.

Owner Consultation & Non-Compliance:

Delay in Treatment: Despite previous verbal commitments to take the puppy for veterinary care first thing in the morning, the owner had not done so.

Owner Explanation: Stated she was awaiting her boyfriend's arrival at 12:00 PM to transport the animal via Uber to a clinic in Grassy Park, as he holds the funds.

Officer Intervention: Reminded the owner of the critical need for immediate medical treatment and highlighted that the animal has been left suffering for nearly two days.

Action Taken & Case Status:

Escalation: Due to repeated non-compliance with prior written and verbal warnings regarding immediate veterinary care, the officer departed the premises to apply for a warrant.

Next Steps: Secure a court warrant to seize and remove the puppy for emergency veterinary care.
