| CONFINEMENT OF ANIMALS          | Free roaming - in property |

General Report Comments: An inspection was conducted on-site after being granted access by the property tenants.  
Resident Animal Inspection:  
The tenants' own dog was observed on the property in fair body condition and free-roaming.  
Living conditions were clean, spacious, and provided access to adequate shelter and clean water.  
Target Animal Inquiry:  
Shown a photograph of the subject dog to the tenants.  
Tenants clarified the subject dog does not reside on-site, though an associate seen with the dog resides there (not present during inspection).  
Tenants reported the target dog lives nearby, is in good health, but had a leg amputated following a prior accident several years ago. They could not provide the exact address for the dog's residence.  
Case Outcome:  
No animal welfare concerns were found regarding the resident dog on the property.  
The target dog was not located on-site.  
Case Status: Closed.
