General Report Comments: According to tennants on the property, the dog was knocked by a Taxi.

I explained to the owner, that according to the law, the animal has to be seen / examined by a vet or he could face serious consequences.

The dog was inside the property at the time of my inspection. Well lit, then brought the dog to me and I could see that it has a slight lump, on the left rear limb. I advised him to have the dog examined by a vet. He told me that they were giving the dog a quarter Panadol with meals. The dog did not appear to be in much discomfort as it was still walking around.

The dog had access to shelter inside the structure and water. The living area was clean.

Warning issued for veterinary treatment was in 72 hours. Signed and accepted by the owner, Walied Solomon's.
