General Report Comments: An inspection visit was conducted on-site; access to the property was granted by the owner, Neville.

Animal Assessment & Enclosure Conditions:
Subject Animals: Two dogs (one older male, one active younger female).
Health & Behavior: Both animals were friendly, observed in fair body condition, and showed no current signs of distress or frustration.
Enclosure: Free-roaming within a side-yard area that provides sufficient space. Equipped with clean water and a shelter large enough for both dogs.
Sanitation: Minor fresh feces observed; owner picks up waste daily and performs a deep clean weekly.
Owner Consultation & Future Plans:
Neville expressed mild concern regarding long-term space constraints for the active younger female dog, despite taking them for regular walks.
He noted preliminary discussions with a friend residing on a farm about potential rehoming to provide larger living grounds.
Advised the owner that current housing satisfies legal requirements, but encouraged monitoring the younger dog for any behavioral changes if long-term rehoming is considered.
Case Status:
No violations under the Animals Protection Act were observed.
Case Status: Closed.
