General Report Comments: Upon arrival, I observed a Rottweiler-type dog roaming freely in front of the property. Both old and fresh faeces were present on the premises. Adequate shelter was available, and a large bowl containing sufficient potable water was provided for the dog.

I called out and hooted several times but received no response. I then approached the neighbouring property and made enquiries. An adult male and an adult female came outside. I introduced myself and explained the concerns that had been reported regarding the neighbouring dog.

The neighbours advised that they rarely see the owner, stating that he only appears on the property occasionally and cleans the premises approximately once a month. They were unable to provide any contact details for the owner.

As no person was present at the property, I issued a 20-hour contact notice stipulating the following:

- 1.The owner must clean and hygienically maintain the dog's living environment within 20 hours.
- 2.Possible abandonment of an animal is suspected at the property, and the owner is required to make contact with the SPCA within 20 hours.

The notice was affixed to the garage door in a conspicuous position.
