Subject: Re: CoGH SPCA : INSP222095 Dog with skin problem and bad hips needs help please

Good day,

Thank you for the feedback concerning this case. This case has not yet been resolved, the inspector was unable to gain access to the dog last week. I called earlier and have been told that there is a meeting scheduled with the owner of the dog for this coming Monday, the owner was not home when the inspector called last week Monday, I was in the garden and saw the van outside the house, also the tenant was home but unable to give access to the inspector to see the dog as he deemed it safer to have the owner present. Please could you keep me updated regarding this case as it has been open for a very long time now, reported on 10 October 2025. With the painful limping and bad skin rash I saw on that animal I certainly hope that something has been done to relieve this animal's obvious pain and discomfort. If due to closing this ref there is another one needing to be opened I would appreciate it if you could provide me with the new ref please.

Thanks and God bless

Brigitte Berg.
