Comments:	We have been to the property twice already with no one there at both times . We have called the owner numerous times but he refuses to answer our calls. Last communication was that he was going to provide us with a permit which states he does not need to sterilise his dogs. However, he blocked us on whatsapp and there has been no contact at all from him since then, despite our efforts. To be checked by the chief for advisement on how to proceed further.
