Medical Report

Client: Lena Taaibos

Patient: Ramos

Species: Canine

Breed: Cross breed

Gender: Male

History:

Ramos was seen on 17/02/2026 with bite wounds on the left side of the neck, with a fluid filled pocket. Antibiotics and anti-inflammatories were issued (purbac and flexocam). Wounds were shaved and cleaned. Owner was advised to come for follow up for drain placement.

Presented again on 20/02/2026

Wound area decreased in size, but still slightly oozing. Owner was cleaning the wound at home with salt water, was encouraged to continue.

Antibiotic and anti-inflammatory treatment advised to be continued for three more days as per our records.

There was no follow up after that.

You can contact us on 021-534 6426 if you have any further questions.

Kind Regards

Dr. M Strydom
