Please describe the concern you have

Hi this is just a follow up on a previous case. INSP220551. My neighbor once again got a dog after 2 dogs were already removed from the home due to mistreatment. He can barely take care of himself, let alone feed and groom the dog. The dog has to hustle for a meal and once again I'm concerned not only about the dog but also my family's health and surrounding neighbors given that once again there is refusal to groom the dog despite having water and soap. The foul odor is back again, which can cause serious illness not to mention should the dog have or get any ticks as well.
