To whom it may concern:

Trevor, +- 4 years old unsterilised male Greyhound, came into our clinic on the 16th of April 2026. The owner reported that Trevor had gone missing on Good Friday and reported that Trevor was found on the 10th of April 2026.

Trevor presented with a fractured tibia / fibula, with necrotic and open degloving wounds from the proximal Tib / fib down to the toes.

The owner was presented with the option of amputation, and sterilisation, however he refused due to the dog being useless to him if this was the only option available to him. He signed over Trevor as a surrender for us to amputate his leg, sterilise and hand him over to Greyhound rescue.

The owner's details are as follows:

Patric Bokveld

Address: BB 242 Ndlovini Khayelitsha 7784

Cell phone number: 071 969 9018

We wish to investigate this matter further as the owner mentioned how Trevor was a hunting dog, and it is also suspected that he was stolen by other hunters.

Kindest regards

Sr. Mikaela Warren
