In light of our inspection conducted on the 25th of March 2026, the follow concerns were observed:

You are hereby warned that:

It was observed that Pepper's enclosure was dirty with urine and faeces. It was also observed that there is no non-slip flooring in the vehicle used to transport the dogs. It was also observed that dog food and hazardous materials are stored within the same room. It was further observed that the PAPA license refers to a dog named Hudson which was claimed to have been euthanized. It also appears that the dogs, Pepper and Murdock display stereotypical behavior while inside their enclosures.

You are hereby instructed to:

1. Clean and disinfect the enclosures thoroughly, including under the kennels.
2. Place non-slip flooring inside the kennel compartment on the vehicle.
3. Ensure that food and hazardous materials are stored separately.
4. Provide us with a euthanasia record for the dog named Hudson.
5. Ensure the dogs have enrichment inside their kennels or are taken out regularly for exercise.

Do so within 96 hours.
