Comments:	feedback provided to the comp of case 226794 Andrea- 0837486703- who stated that they have been there for the decemeber period and the monkeys were kept in the sun the whole day and she feels the monkeys are better off somewhere else than being in the care f this place - she sttaed the closures the monkies were in were horrible. she then wanted to know if the inspector will be going back to do another follow up on the monkeys before the get sent off to ensure that they are still in a fair clean living space. i advised i would have to discuss this with the supervios whom is not in.
