Comments:	feedbac provided to Clair logan- 0828960148 in which she proceeded to ask about the shelter and stating the dog must be removed as apparently there was a final warning issued and to her that means that we must take the dog, i advsed as per the report that 2 of the dogs are no longer on the property and were send to the previous owners in lavenderhill however refused to give us the address. The compl then demanded that we get SAPS to go with us to force the owner to give us the details. I advised her because I could not answer her questions regarding the property or the shelter since the inspector didn't add it in the report. She further mentioned that the inspector may have seen the dog roaming today, but tomorrow the dog will be tied and she will ask the neighbors to keep an eye on the dog because the owner is staying at the property illegally. She then asked that the inspector give her a call.
