Please describe the concern you have

The abuse of the pigs is well known in Kuilsriver. My friend witnessed a goat with nails so long he he could barely walk. He could barely walk. He was unable to reach his food and water and he died. The ears of the pigs are all bitton off because the dogs attack them. When they are in heat the huge male mates the one after the other with the young small females and some females died. This is horrible abuse. Will you address urgently. The person in charge there name is Willem and stays at the back of farm next door where they sell the wood.
