35. If more than 2 strokes – why Not applicable
36. Does dressing of animal take place while life signs still showing No
37. Is the area used for bleeding cleaned between each animal Yes

Comments _____

Some of the handlers had to be educated/reminded how to carry the sheep. All animals had access to water, feed and shelter. All animals appeared to be in a fair condition. No downers were observed. The pens were clean. The slaughter took place efficiently. The bleeding time was adequate, and then animals were checked before moved to the slaughter area.
