35. If more than 2 strokes – why _____
36. Does dressing of animal take place while life signs still showing _____
37. Is the area used for bleeding cleaned between each animal _____

Comments _____

The Mufti was very competent and all went very well. The (1) suspected sick sheep was identified and immediately brought to the attention of the owner, whereupon it was isolated pending the outcome from the State Veterinarian Dr Alfred Kidd, Stellenbosch.

After receiving the 'all clear', the sheep was slaughtered without delay.
