Any other information you would like us to know?

This female dog named Toga has a sore leg; I took her to the vet at the end of last year for the same problem but she is in pain and struggling to walk again. I have advised the owner to go to the AACL but they have said they dont have money and they are not willing to walk there, using the excuse that it is dangerous. The reason I am not willing to put them on my account is because they are able to buy alcohol but dont have money to treat their dog.

Please find a picture of the house, Toga and part of my conversation with the owner attached.
