Good morning.

I'm so tired of reporting moronic people in this same road but here i am again...

Firstly, thank you for your assistance with the dog at number 33 Louise Crescent.

Next, I want to report another situation that just happened and I was contacted to report it....Number 19 Louise Crescent.

Last ref number was INSP194272, where pitbulls attacked a small dog badly.

I actually assisted in the issue that day because I was in the area.

They had 2 pitbulls in a way too confined space and somehow they managed to get hold of the smaller dog that also lives at the same premises.

Too many dogs on the same property and moronic owners makes for bad possibilities with regards to dog fighting.

Apparently the same thing just happened again.

Also, there were reports of a rottweiler at number 14 Louise I believe.

I think the owners at that house just need some proper guidance in caring properly for their pets (don't understand why grown people need to be told this though).....and maybe the situation will be better.

I don't know what's going on with people these days but I will do what I can, to help every animal suffering due to incompetant owners.

Good day

INSP194272 - 19 Louise Crescent

This was previously logged for the pitbull at the property attacking another smaller dog.
There was an incident now again where the pitbull attacked a dog on the property.

Can you please request the inspectorate to go there urgently?

Thank you
Ingrid

Hi Inspectorate,

I would like to report this household again, as I have previously reported the same issue involving two Pit Bulls attacking a smaller dog.

This morning, we could hear the smaller dog crying as both Pit Bulls had hold of it. Several neighbours had to rush to the property to try to stop the attack. The owner only arrived home after some time, and I am unsure what happened afterwards, but the cries suddenly stopped.

This is a recurring issue, so please could an inspector urgently attend the property to check on the animals and address the situation before the smaller dog is seriously injured or killed?

Thank you.

Kind regards

Kaylin
